Dr C.Ezhilarasan is presenting

How to write Abstract?
Additional Thoughts on Abstract Writing

There is a three-part test that should be applied to your abstract when you are finished:

- Is all of the information in the abstract consistent with what is written in the body of the paper?
- Can all of the information found in the abstract also be found in the body of the paper?
- Is the important information of the paper found in the abstract?
- Are any key words from the paper missing from the abstract?

Dr C.Ezhilarasan is presenting

How to write Introduction?

- Statement of the methods and scope of the study.
- An overview of the rest of the paper.

Four Questions:

- What is the present state of knowledge regarding the topic under consideration?
- How are the studies related to the one being proposed?
- What is the quality of the studies reviewed?
- How will the proposed study contribute to the existing literature?
